Backend-side:
- Nodejs
- Mangodb
- Express js

Related tech:
- Canva
- Adobe photoshop

LANGUAGES

- Somali (native)
- English (intermediate)

ABOUT ME

I am a junior full stack web developer and a second-year student in the Computer Science department, specializing in Computer Applications at [Your University]. With a strong foundation in both front-end and back-end technologies, I have hands-on experience in developing responsive and user-friendly web applications. I am proficient in HTML, CSS, and JavaScript, and I am familiar with frameworks such as React and Node.js. Passionate about coding, problem-solving, and continuous learning in the ever-evolving tech landscape, I am eager to contribute to innovative projects and collaborate with a dynamic team to create impactful web solutions.

EXPERIENCE

** Personal Projects* (June 2023 - October 2023)
Developed responsive web applications using HTML, CSS, JavaScript, and Node.js. Built RESTful APIs and managed databases with MongoDB. Completed projects including a portfolio website and a task management app. Proficient in Git for version control.
